PROPERTY MANAGEMENT TRADING ENTITY

ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2011

ACCOUNTING POLICIES

1. BASIS OF PREPARATION

The annual financial statements have been prepared on the going concern basis utilising the historical cost concept. The annual financial statements have been prepared in accordance with the South African Statements of Generally Accepted Accounting Practice and in the manner required by the Public Finance Management Act, 1 of 1999, and the Division of Revenue Act, Act 2 of 2006.

1.1 TRADE RECEIVABLES

Trade and other receivables are initially recognised at fair value and subsequently at amortised cost. The carrying amount of trade receivables is net of the provision for impairment. The provision for impairment on receivables is calculated based on available information which indicate that the amount receivable are impaired, e.g. liquidation of the debtor. In addition, the amounts outstanding for longer than 3 years and longer are considered to be impaired and the whole amount greater than 3 years is considered as the provision.

Receivables are assessed for impairment at each balance sheet date.

1.2 TRADE AND OTHER PAYABLES

Trade and other payables are initially recorded at fair value and then subsequently recorded at amortised cost.

1.3 CASH AND CASH EQUIVALENTS

Cash and cash equivalents are carried at fair value. For the purpose of the cash flow statement, cash and cash equivalents comprise cash on hand, and deposits held on call with banks and investments in money market instruments, net of bank overdrafts. Amounts held with Property Management Trading Entity bankers in favour of its service providers are also included in cash and cash equivalent.

1.4 REVENUE RECOGNITION

Revenue represents the gross inflow of economic benefits during the period arising in the course of the ordinary activities when those inflows result in increase in equity/reserves. The following specific recognition criteria must also be met before revenue is recognised:

Management fees

Management fees are earned from the administrative services rendered on behalf client departments. The services entail the payment of municipal charges on behalf of client department. A management fee of 5% is computed on the municipal charge paid on behalf of client department. The management fee is recognised on payment of the municipal charges on behalf of client departments.

Government grant

Government grant is recognised at fair value when there is reasonable assurance that the PMTE will comply with the conditions attached to the grants will be received. The Grant is income received from DPW to Enable PMTE to deliver its mandate of property management.

Rental income

Rental income is collected on both government owned buildings rented to client departments and privately owned buildings rented on behalf of government departments from private landlords. Rental income is recognized when PMTE becomes entitled to the income in terms of the lease entered into between PMTE and the respective government departments.

1.5 OPERATING LEASES

Lease where significant portion of the risk and rewards are retained by the lessor are classified as operating lease. Payments made under operating lease are charged to the income statement on a straight line basis over the period of the lease.

PROPERTY MANAGEMENT TRADING ENTITY

ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2011

ACCOUNTING POLICIES

1.6 IRREGULAR, FRUITLESS AND WASTEFUL EXPENDITURE

Irregular, fruitless and wasteful expenditure is recognised as expenditure in the statement of comprehensive income. If the expenditure is not condoned by the relevant authority it is treated as an asset until it is recovered or written off as irrecoverable.

1.7 CONTINGENT LIABILITIES

Contingent liabilities are included in the financial statements when it is possible that economic benefits will flow from the department, or when an outflow of economic benefits or service potential is probable but cannot be measured reliably.

1.8 CONTINGENT ASSETS

Contingent assets are included in the financial statements when it is possible that an inflow of economic benefits will flow to the entity.

1.9 COMMITMENTS

Commitments are not recognised in the statement of financial position as a liability or as expenditure in the statement of comprehensive income but are included in the financial statements as further disclosure.

1.10 COMPARATIVE FIGURES

Comparative figures have been adjusted to conform to changes in presentation and classification in the current year. Comparatives were also adjusted as a result of the change from modified cash basis of accounting to use of the South African Statements of Generally Accepted Accounting Practice. The impact of the change is disclosed in note 10 below.

1.11 FUNCTIONAL CURRENCY

The entity uses South African Rand as its functional currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in the income statement, except when deferred in equity as qualifying cash flow hedges and qualifying net investment hedges.

Translation differences on non-monetary financial assets and liabilities are reported as part of the fair value gain or loss.

1.12 FINANCE COST

Finance cost comprises interest payable on borrowings and interest resulting from the unwinding of discount on liabilities. Borrowing costs which are not capitalised are recognised in profit or loss using the effective interest method.

1.13 CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the entity's accounting policies, which are described in note 1, management are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and the associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

PROPERTY MANAGEMENT TRADING ENTITY

ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2011

NOTES TO THE ANNUAL FINANCIAL STATEMENTS

2. NEW STANDARDS AND INTERPRETATIONS

2.1 STANDARDS AND INTERPRETATIONS EFFECTIVE AND ADOPTED IN THE CURRENT YEAR

In the current year, the entity has adopted for the first time the following standards and interpretations that are effective for the current financial year and that are relevant to its operations:

2009 Annual Improvements Project: Amendments to IAS 17 Leases

The amendment removes the guidance that leases of land, where title does not transfer, are operating leases. The amendment therefore requires that lease classification for land be assessed in the same manner as for all leases. The amendment is to be applied retrospectively, unless the information is not available. In these cases, existing leases shall be reconsidered based on facts and circumstances existing at the date of adoption of the amendment. The lease asset and lease liability shall, in these cases be recognised at their fair values on that date, with any difference in those fair values recognised in retained earnings.

The effective date of the amendment is for years beginning on or after 01 January 2010.

The impact of the amendment is not material.

2009 Annual Improvements Project: Amendments to IAS 18 Revenue

The amendment provides additional guidance in the determination of whether an entity is acting as an agent or principal in a revenue transaction.

The effective date of the amendment is for years beginning on or after 01 June 2009.

The adoption of this amendment has not had a material impact on the results of the entity, but has resulted in more disclosure than would have previously been provided in the annual financial statements.

2009 Annual Improvements Project: Amendments to AC142 Non-current Assets Held for Sale and Discontinued Operations

The amendment specifies that disclosures of other Standards do not apply to non-current assets (or disposal groups) held for sale or discontinued operations, unless specifically required by other Standards or for measurement disclosures of assets and liabilities in a disposal group which are outside the measurement requirements of AC142 Non-current Assets Held for Sale and Discontinued Operations.

The effective date of the amendment is for years beginning on or after 01 January 2010.

The impact of the amendment is not material.

2009 Annual Improvements Project: Amendments to AC101 Presentation of Financial Statements

The amendment clarifies that a liability which could, at the option of the counterparty, result in its settlement by the issue of equity instruments, does not affect its classification as current or non-current.

The effective date of the amendment is for years beginning on or after 01 January 2010.

The impact of the amendment is not material.

2009 Annual Improvements Project: Amendments to AC118 Statement of Cash Flows

The amendment provides that expenditure may only be classified as 'cash flows from investing activities' if it resulted in the recognition of an asset on the statement of financial position.

The effective date of the amendment is for years beginning on or after 01 January 2010.

The impact of the amendment is not material.

PROPERTY MANAGEMENT TRADING ENTITY

ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2011

NOTES TO THE ANNUAL FINANCIAL STATEMENTS

2. NEW STANDARDS AND INTERPRETATIONS (continued)

2009 Annual Improvements Project: Amendments to AC111

The amendment provides additional guidance in the determination of whether an entity is acting as an agent or principal in a revenue transaction.

The effective date of the amendment is for years beginning on or after 01 July 2009.

The adoption of this amendment has not had a material impact on the results of the entity, but has resulted in more disclosure than would have previously been provided in the annual financial statements.

AC139 Share-based payment (amended)

AC132 provides that an entity receiving goods or services in a share-based payment transaction that is settled by any other entity in the entity or any shareholder of such an entity in cash or other assets is now required to recognise the goods or services received in its financial statements.

The effective date of the amendment is for years beginning on or after 01 January 2010.

The impact of the amendment is not material.

2.2 STANDARDS AND INTERPRETATIONS EARLY ADOPTED

The entity has not chosen to early adopt any standards and interpretations.

2.3 STANDARDS AND INTERPRETATIONS NOT YET EFFECTIVE

The entity has chosen not to early adopt the following standards and interpretations, which have been published and are mandatory for the entity's accounting periods beginning on or after 01 April 2011 or later periods:

IFRS 9 Financial Instruments

This new standard is the first phase of a three phase project to replace IAS 39 Financial Instruments: Recognition and Measurement. Phase one deals with the classification and measurement of financial assets. The following are changes from the classification and measurement rules of IAS 39:

- Financial assets will be categorised as those subsequently measured at fair value or at amortised cost.
- Financial assets at amortised cost are those financial assets where the business model for managing the assets is to hold the assets to collect contractual cash flows (where the contractual cash flows represent payments of principal and interest only). All other financial assets are to be subsequently measured at fair value.
- Under certain circumstances, financial assets may be designated as at fair value
- For hybrid contracts, where the host contract is within the scope of IFRS 9, then the whole instrument is classified in accordance with IFRS 9, without separation of the embedded derivative. In other circumstances, the provisions of IAS 39 still apply.
- Voluntary reclassification of financial assets is prohibited. Financial assets shall be reclassified if the entity changes its business model for the management of financial assets. In such circumstances, reclassification takes place prospectively from the beginning of the first reporting period after the date of change of the business model.
- Investments in equity instruments may be measured at fair value through profit or loss. When such an election is made, it may not subsequently be revoked, and gains or losses accumulated in equity are not recycled to profit or loss on derecognition of the investment. The election may be made per individual investment.
- IFRS 9 does not allow for investments in equity instruments to be measured at cost under any circumstances.

The effective date of the standard is for years beginning on or after 01 January 2013.

The entity expects to adopt the standard for the first time in the 2014 annual financial statements.

It is unlikely that the standard will have a material impact on the entity's annual financial statements.

IAS 24 Related Party Disclosures (Revised)

The revisions to IAS 24 include a clarification of the definition of a related party as well as providing a partial exemption for related party disclosures between government-related entities.

PROPERTY MANAGEMENT TRADING ENTITY

ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2011

NOTES TO THE ANNUAL FINANCIAL STATEMENTS

2. NEW STANDARDS AND INTERPRETATIONS (continued)

In terms of the definition, the revision clarifies that joint ventures or associates of the same third party are related parties of each other. To this end, an associate includes its subsidiaries and a joint venture includes its subsidiaries.

The partial exemption applies to related party transactions and outstanding balances with a government which controls, jointly controls or significantly influences the reporting entity as well as to transactions or outstanding balances with another entity which is controlled, jointly controlled or significantly influenced by the same government. In such circumstances, the entity is exempt from the disclosure requirements of paragraph 18 of IAS 24 and is required only to disclose:

- The name of the government and nature of the relationship
- Information about the nature and amount of each individually significant transaction and a quantitative or qualitative indication of the extent of collectively significant transactions. Such information is required in sufficient detail to allow users to understand the effect.

The effective date of the amendment is for years beginning on or after 01 January 2011.

The entity expects to adopt the amendment for the first time in the 2012 annual financial statements.

The impact of this amendment is currently being assessed.

2010 Annual Improvements Project: Amendments to IFRS 7 Financial Instruments: Disclosures

Additional clarification is provided on the requirements for risk disclosures.

The effective date of the amendment is for years beginning on or after 01 January 2011.

The entity expects to adopt the amendment for the first time in the 2012 annual financial statements.

The adoption of this amendment is not expected to impact on the results of the entity, but may result in more disclosure than is currently provided in the annual financial statements.

2010 Annual Improvements Project: Amendments to IAS 1 Presentation of Financial Statements

The amendment now requires that an entity must present, either in the statement of changes in equity or in the notes, an analysis of comprehensive income by item.

The effective date of the amendment is for years beginning on or after 01 January 2011.

It is unlikely that the amendment will have a material impact on the entity's annual financial statements.

2.4 STANDARDS AND INTERPRETATIONS NOT YET EFFECTIVE OR RELEVANT

The following standards and interpretations have been published and are mandatory for the entity's accounting periods beginning on or after 01 April 2011 or later periods but are not relevant to its operations:

First time adopters of IFRS may measure exploration and evaluation assets and assets in the development or production phase (for oil and gas properties) at the amount determined in accordance with their previous GAAP at date of transition. However, these assets should be tested for impairment in accordance with IAS 36 (AC 128) Impairment of Assets at the date of transition to IFRS and, if necessary, reduced. If the exemption for oil and gas assets is applied, then any decommissioning, restoration and similar liabilities at the date of transition shall be determined in accordance with IAS 37 (AC 130) Provisions, Contingent Liabilities and Contingent Assets. The difference between that amount and the amount recognised under previous GAAP shall be recognised directly in retained earnings.

Another exemption provides for first-time adopters who made the same determination of whether an arrangement contains a lease in accordance with previous GAAP as required by IFRIC 4 (AC 437) Determining Whether an Arrangement Contains a Lease, but at a date other than that required by IFRIC 4, the first time adopter need not reassess that determination when it adopts IFRS.

The effective date of the amendment is for years beginning on or after 01 January 2010.

The company does not envisage the adoption of the standard until such time as it becomes applicable to the company's operations.

It is unlikely that the amendment will have a material impact on the company's annual financial statements.

PROPERTY MANAGEMENT TRADING ENTITY

ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2011

NOTES TO THE ANNUAL FINANCIAL STATEMENTS

2. NEW STANDARDS AND INTERPRETATIONS (continued)

IFRIC 19 Extinguishing Financial Liabilities with Equity Instruments

The effective date of the amendment is for years beginning on or after 01 July 2010.

2010 Annual Improvements Project: Amendments to IFRS 1 First-time Adoption of International Financial reporting Standards

The effective date of the amendment is for years beginning on or after 01 January 2011.

2010 Annual Improvements Project: Amendments to IFRS 3 Business Combinations

The effective date of the amendment is for years beginning on or after 01 July 2010.

2010 Annual Improvements Project: Amendments to IAS 21 The Effects of Changes in Foreign Exchange rates

The effective date of the amendment is for years beginning on or after 01 July 2010.

2010 Annual Improvements Project: Amendments to IAS 28 Investments in Associates

The effective date of the amendment is for years beginning on or after 01 July 2010.

2010 Annual Improvements Project: Amendments to IAS 31 Interests in Joint Ventures

The effective date of the amendment is for years beginning on or after 01 July 2010.

2010 Annual Improvements Project: Amendments to IAS 34 Interim Financial Reporting

The effective date of the amendment is for years beginning on or after 01 January 2011.

2010 Annual Improvements Project: Amendments to IFRIC 13 Customer Loyalty Programmes

The effective date of the amendment is for years beginning on or after 01 January 2011.

Improvements to IFRIC 14 – IFRS 19 The Limit on a Defined Benefit Asset, Minimum Funding Requirements and Their Interaction

The effective date of the amendment is for years beginning on or after 01 January 2011.

Amendment to IFRS 1 (AC138) Limited Exemption from Comparative IFRS 7 Disclosures for First-Time Adopters

The amendment allows first time adopters to apply the transitional provisions of IFRS 7 (AC144). The exemption is only allowed for annual financial statements where the earliest comparative is before years ending on 31 December 2009.

The effective date of the amendment is for years beginning on or after 01 July 2010.

The entity does not envisage the adoption of the amendments until such time as it becomes applicable to the entity's operations.

It is unlikely that the amendments will have a material impact on the entity's annual financial statements.

16. RISK MANAGEMENT

Financial risk management

The entity's activities expose it to a variety of financial risks: credit risk and liquidity risk.

Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities, the availability of funding through an adequate amount of committed credit facilities and the ability to close out market positions. Due to the dynamic nature of the underlying businesses, entity treasury maintains flexibility in funding by maintaining availability under committed credit lines.

The entity's risk to liquidity is a result of the funds available to cover future commitments. The entity manages liquidity risk through an ongoing review of future commitments and credit facilities.

Cash flow forecasts are prepared and adequate utilised borrowing facilities are monitored.

The table below analyses the entity's financial liabilities and net-settled derivative financial liabilities into relevant maturity groupings based on the remaining period at the reporting date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

At 31 March 2011	Less than 1 year	Between 1 and 2 years	Between 2 and 5 years	Over 5 years
Trade and other payables	1 187 203	-	-	-

16. RISK MANAGEMENT (continued)				
At 31 March 2010	Less than 1 year	Between 1 and 2 years	Between 2 and 5 years	Over 5 years
Trade and other payables	934 936	-	-	

Interest rate risk

As the entity has no significant interest-bearing assets, the entity's income and operating cash flows are substantially independent of changes in market interest rates.

Credit risk

Credit risk consists mainly of trade debtors.

Trade receivables comprise of receivables from different government departments. Management evaluated credit risk relating to customers on an ongoing basis. As all the client departments are government entities, credit risk arising from such exposures is minimal.
